

Public Service Commission of South Carolina Tariff Summary Sheet as of May 18, 2009

McClellanville Telephone Company, Inc. d/b/a TDS Telecom

Tariff Service: Local

This document is the complete version of the tariff on file and contains the following approved revisions. Detailed information is available for each revision on the Commission's E Tariff website (http://etariff.psc.sc.gov).

Revision	Date Filed	Effective Date	# of Pages	
E2009-92	5/4/09	5/18/09	2	
Summary: The purpose of this filing is to remove the requirement for the 3 STAR Package that states that customers must subscribe to TDS Long Distance in order to receive the bundle. Customers subscribing to the 3 STAR Package will have the option to no pic or to keep their preferred carrier. For those customers that do subscribe to TDS Long Distance, the package will include 30 minutes of free LATA Wide and/or Long Distance calling. This revision is also applicable to our other South Carolina Companies: Norway, St. Stephen and Williston Telephone Companies.				
E2009-26	2/3/09	2/17/09	2	
Summary: The purpose of this filing is to add language to waive the Service Connection Charge when a customer is requesting a number change due to harassing phone calls. This waiver is also available at our other SC Companies - Norway, St. Stephen, and Williston Telephone Companies				
E2008-430	12/22/08	1/12/09	8	
<u>Summary:</u> The purpose of this filing is first to add STAR packages to the tariff. The STAR packages are optional service bundles that permit a customer to receive services and features for a flat monthly rate. With this filing we will also grandfather the Total Talk to existing Residential customers effective Jan 7, 2009. These new services will also be available at our other SC Companies: Norway, St. Stephen & Williston				
E2008-234	8/8/08	8/27/08	4	
Summary: The purpose of this filing is to add Customized 911 (C911) Service to the tariff. C911 Service allows a customer to provide 911 Dispatch Centers (PSAP) with specific information for their PBX station telephone numbers or business lines. This new service is also available at our other South Carolina companies. Norway, St. Stephen and Williston Telephone Companies

DEFINITION OF TERMS

EXCHANGE

A central office or group of central offices, together with the customer stations and lines connected thereto, forming a local communications system furnishing means of telephonic intercommunication without toll charges between customers within a specified area, usually a single city, town or village and its environs. When an exchange includes only one central office, it is termed a single office exchange, but when it includes more than one central office, the exchange is termed a multi-office exchange.

EXCHANGE AREA

The corporate limits of the municipality or the local community area in which adequate local exchange telephone service is, or is proposed to be furnished, together with such rural areas contiguous thereto as are served, or as are proposed to be served with reasonably adequate local exchange service from the exchange in question.

EXCHANGE SERVICE

- a. The general telephone service rendered in accordance with tariff provisions. Exchange Service is a general term describing as a whole the facilities provided for local intercommunication, together with the right to originate and receive a specified or an unlimited number of local messages at charges in accordance with the provisions of this tariff.
 - (1) Flat Rate Service: A classification of exchange service furnished to a customer under tariff provisions, for which a stipulated charge is made, regardless of the amount of use.
 - (2) Foreign Central Office Service: A classification of exchange service furnished under tariff provisions by means of a circuit connecting a customer's main station or private branch exchange system with a central office other than that regularly serving customers within the area in which the station is located, but within the same exchange service area.
 - (3) Foreign Exchange Service: A classification of exchange service furnished under tariff provisions by means of a circuit connecting a customer's main station or private branch exchange system with central office of an exchange other than that which regularly serves the exchange service area in which the customer is located.
 - (4) Individual Line Service: A classification of exchange service furnished under tariff provisions which provide that only one main station shall be served by the circuit connecting such station with the central office.

DEFINITION OF TERMS

RINGING

- a. There are three methods of signaling stations on party or multi-party line circuits.
 - (1) Code Ringing: The method of signaling stations on a party or multi-party line circuit, whereby the bells of all stations on the circuit are rung whenever one station is signaled, signals of the respective stations being distinguished by a code made up of various combinations of short and long rings.
 - (2) Selective Ringing: The method of signaling stations on a party line circuit, which permits a particular station to be signaled without ringing the bells of the other stations on the circuit.
 - (3) Semi-Selective Ringing: The method of signaling stations on a party or multiparty line circuit, whereby the bells of only a portion of the stations on a circuit are rung when one of the stations is signaled, signals of the respective stations being distinguished by a code made up of various combinations of short and long rings.

RINGING CURRENT

See "Private Branch Exchange Service".

ROTARY SERVICE

An arrangement whereby two or more lines furnished to a customer are assigned numbers in sequence and equipped so that calls to the first number are automatically completed to the first non-busy line in the sequence. Lines beyond the first line are referred to as "auxiliary lines".

ROUTE MEASUREMENT

See "Mileage and Zone Charges."

DEFINITION OF TERMS

TELEPHONE STATION

A unit of service, complete with all instrumentalities (e.g., telephone set, connecting block, inside wiring, protection apparatus, drop or block wiring) and lines (circuits), so arranged as to permit sending and receiving messages through the exchange and long distance network.

- a. Company Stations:
 - (1) Company Station: A station for which the central office equipment, lines and station equipment are owned and maintained by the Company and provided as a part of the Company's service offering. This term also denotes the network control signaling unit, Data-Tel data set or other equipment provided by the Company at the customer's premises, which enables the customer to establish the communications connection and to effect communications through such connections.
- b. Exchange and Toll Stations and Toll Terminals:
 - (1) Exchange Station: A Company or service station furnished for exchange service and directly or indirectly connected with a central office.
 - (2) Toll Terminal: A toll terminal is a Company station to which long distance service only is furnished; a toll terminal is furnished only where the customer retains one or more exchange stations.
- c. Main and Extension Stations
 - (1) Main Station: A Company station, directly connected by means of an individual line or party line with a central office.
 - (2) Extension Station: An additional station connected on the same line as the main station and subsidiary thereto.
- d. PBX and Centrex Stations:

GENERAL REGULATIONS

2.1 Application

The regulations specified herein are applicable to all communication services offered in this tariff by McClellanville Telephone Company, Inc. d/b/a TDS Telecom, hereinafter referred to as the Company. Additional regulations, where applicable, pertaining to specific service offerings accompany such offerings in various Sections of this tariff.

2.2 Limitations and Use of Service

2.2.1 Use of Customer's Service

- a. Telephone equipment and facilities are furnished for the use of the customer employees, agents or representatives of the customer or members of the customer's domestic establishment, except in connection with semi-public telephone service and except as the use of the service may be extended, in addition to other service, which may be separately ordered to joint users, patrons of hospitals or of hotels, members of clubs, students living in quarters furnished by schools, colleges or universities, to persons temporarily subleasing a customer's residential premises, or to tenants living in retirement complexes.
- b. Except as otherwise provided in this tariff, service furnished by the Company is intended only for communications in which the customer has a direct interest and shall not be used for any purpose for which a payment or other compensation shall be received by him from any other person, firm or corporation for use, or in the collection, transmission or delivery of any communication for others. This prohibition shall not apply to a customer who is engaged as a communications common carrier for message telegraph communications.
- c. In view of the fact that the customer has exclusive control of his communications over the facilities furnished him by the Company, and of the other uses for which facilities may be furnished him by the Company, and because of unavoidable ness of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions, and limitations herein specified.

2.2.2 Establishment of Identity

a. The calling party shall establish his identity in the course of any communication as often as may be necessary.

ISSUED: April 11, 2008 EFFECTIVE: April 25, 2008

McCLELLANVILLE TELEPHONE COMPANY, INC.

d/b/a TDS Telecom South Carolina Section 2 Original Sheet 2

GENERAL REGULATIONS

2.2 <u>Limitations and Use of Service</u> (Continued)

2.2.2 Establishment of Identity (Continued)

b. The calling party shall be solely responsible for establishing the identity of the person or station with whom connection is made at the called location.

2.2.3 Unauthorized Attachments or Connections

No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company, whether physically, by induction, or otherwise, except as provided in this tariff. In case such unauthorized attachment or connection is made, the Company shall have the right to remove or disconnect the same; or to suspend the service during the continuance of said attachments or connection or to terminate the service.

2.2.4 Miscellaneous Devices Provided by the Customer

- a. The provisions of 2.2.3 preceding shall not be construed or applied to bar a customer from using devices which serve his convenience in his use of the facilities of the Company in the service for which they are furnished under this tariff, provided any such device so used would not endanger the safety of Company employees or the public; damage, require change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Company employees or the public damage, require change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Company; or interfere with the proper functioning of such equipment or facilities; or impair the operation of the telephone system or the teletypewrite system or otherwise injure the public in its use of the Company's services.
- b. Devices provided by the customer to obtain quietness or privacy may be used in conjunction with the telephone instrument furnished to the customer by the Company, provided any such device does not involve direct electrical connection to the equipment of the Company or any change in or alteration of such equipment, or interfere with its proper functioning, or damage it in any way.
- c. Except as otherwise provided in this tariff, nothing herein shall be construed to permit the use of a recording device or of a device to interconnect any line or channel of the Company with any other communication line or channel of the Company or of any other person.

GENERAL REGULATIONS

2.2 <u>Limitations and Use of Service</u> (Continued)

2.2.5 Broadcast of Recordings of Telephone Conversations

The provisions of 2.2.3 preceding shall not apply to the broadcasting of a recording of a telephone conversation during the period of recording provided that, in the interest of protecting the privacy of telephone service, the recording is made in accordance with the regulations governing connection with customer-provided voice recording equipment as specified in this tariff.

2.2.6 Recorded Public Announcement

- a. Use of Company facilities or service in connection with automatic answering service, automatic answering and recording service, recorder-coupler service or miscellaneous devices for recorded public announcements are subject to the following conditions:
 - (1) For purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the record message the name of the organization or individual responsible for the service and the address at which the service is provided, unless the address of the organization or individual named in the announcement is shown in the currently distributed telephone directory.
 - (2) Private telephone numbers will not be furnished for use with recorded public announcements.
 - (3) Failure to comply with the provisions of this tariff shall be cause for termination of service.

2.2.7 Limited Communication

The Company reserves the right to limit the length of communication when necessary because of a shortage of facilities caused by emergency conditions.

2.2.8 Transmitting Messages

The Company does not transmit messages but offers the use of its facilities for communications between customers. If because of transmission difficulties, the operator, in order to accommodate the customer, repeats messages, she is deemed to be acting as the agent of the persons involved and no liability shall attach to the Company because of any errors made by the operator or misunderstandings that may arise between customers because of the errors.

GENERAL REGULATIONS

2.2 <u>Limitations and Use of Service</u> (Continued)

2.2.9 Unlawful Use of Service

The service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will be discontinued if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service is being used in violation of law. The Company will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of law.

2.2.10 Cancellation of Service for Cause

- a. The Company may, without notice, either suspend service or terminate the customer's contract without suspension of service or following a suspension of service, disconnect the service and remove any of its equipment from the customer's premises upon:
 - (1) Abandonment of the service.
 - (2) Failure of a customer to make suitable deposit as required by this tariff.
 - (3) Impersonation of another with fraudulent intent.
 - (4) Listening in on party line conversations.
 - (5) Non-payment of any sum due for exchange, long distance or other services.
 - (6) Use of service in such a way as to impair or interfere with the service of other customers; such improper use includes, but is not limited to, the use of telephone service by a customer or with his permission in connection with a plan or contrivance to secure a large column of telephone calls, to be directed to such customer at or about the same time which may result in preventing, obstructing, or delaying the telephone service of others.
 - (7) Use of service or facilities for a call or calls, anonymous in a manner reasonable to be expected to frighten, abuse, torment, or harass another.
 - (8) Any other violation of the Company's regulations.
- b. The Company reserves the right to cancel any contract for service with and to discontinue service to any person who uses or permits the use of obscene, profane or grossly abusive language over or by means of the Company's facilities, and who, after reasonable notice fails, neglects or refuses to cease and refrain from such practice or to prevent the same, and to remove its property from the premises of such person.

GENERAL REGULATIONS

2.3 Establishment and Furnishing of Service

2.3.1 Availability of Facilities

- a. The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the provision of such service.
- b. The rates and charges quoted in this tariff provide for the furnishing of service and facilities where suitable facilities are available or when the construction of the necessary facilities does not involve excessive costs.
- c. When excessive costs are involved for the construction of facilities, charges for such construction will be determined in accordance with the regulations as set forth in Section 5, "Charges Applicable Under Special Conditions," except as otherwise specified.

2.3.2 Application for Service

- a. Any applicant for service may be required to sign an application form requesting the Company to furnish the service in accordance with rates, charges, rules and regulations from time to time in force and effect.
- b. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to establish service for former customers of the Company who are indebted for previous service, regardless of the listing requested for such service, until satisfactory arrangements have been made for the payment of such indebtedness.

GENERAL REGULATIONS

2.3 <u>Establishment and Furnishing of Service</u> (Continued)

2.3.2 Application for Service (Continued)

- c. If telephone service is established and it is subsequently determined that either condition in b. above exists, the Company may suspend or disconnect such service until satisfactory arrangements have been made for the payment of the prior indebtedness.
- d. When an application for service and facilities or requests for additions, rearrangements, relocations or modifications of service and equipment are cancelled in whole or in part prior to completion of the work involved, the applicant is required to reimburse the Company for all expense incurred in handling the request before notice of cancellation is received. Such charges, however, are not to exceed all charges which would apply if the work involved in complying with the request had been completed.

Any costs due to a rearrangement of equipment caused by a suspension of a portion of a service, will be borne by the customer.

- e. When equipment has been ordered for the specific needs of a customer and the installation thereof is unduly delayed by or at the request of the customer, applicable charges as specified in Section 5.3 apply for such equipment for the period of the delay.
- f. When a customer requests a change in location of all or a part of the facilities covered by his application for service or request for addition, rearrangements or modifications of his existing service and equipment prior to completion of the work involved, he is required to pay the difference between the total costs and expenses incurred by the Company in completing the work involved and that which would have been incurred, had the final location of the facilities been specified initially.

2.3.3 Application of Rates for Business and Residence Service

- a. Although, in general, business rates apply at business locations and residence rates apply at residence locations, the determination as to whether customer service should be classified as business or residence is based on the character of use to be made of the service.
- b. Business rates apply whenever the use of the service is primarily or substantially at a business, professional, institutional or otherwise occupational nature, where the listing required is such as to indicate business use.

Business rates apply for:

- (1) Offices, stores, factories, mines and all other places of a strictly business nature.
- (2) Boarding houses, except as modified under 2.3.4.c.(2); office of hotels and apartment houses, colleges, quarters occupied by clubs and fraternal societies, except as modified under 2.3.4.c.(5); private schools, hospitals, nursing homes, libraries and other institutions and churches. Note: For the purpose of this tariff, a boarding house is defined as a house or apartment where rooms are rented or boarders taken or both. Such houses or apartments may obtain service at residence rates when, in the judgment of the Company, they are not conducted primarily for business purposes and are listed as residences.
- (3) Residence locations, where the place of residence is adjacent to a place of business and is connected thereto, and it is not evident that the service located in the residence is to be employed primarily for domestic use.
- (4) Residence locations, where an extension station or extension bell is located in any place where business rates would apply under the provisions of this tariff.
- (5) Service terminating solely on the secretarial facilities of a secretarial answering firm will carry business rates.
- (6) Any location where a business designation is provided or when any title indicating a trade or profession is listed, except as modified under 2.3.4.c.(3).
- (7) All other locations where the customer's primary use of service is for business purpose.
- c. Residence rates apply when the use of the service is of domestic nature and provided that service is not used substantially for occupational purposes. Residence rates apply for:

GENERAL REGULATIONS

- 2.3 <u>Establishment and Furnishing of Service</u> (Continued)
 - 2.3.3 Application of Rates for Business and Residence Service (Continued)
 - c. (Continued)
 - (1) Private residence on service not employing business listings.
 - (2) Private apartments in hotels, clubs and boarding houses where service is confined to the domestic use of the customer and business listings are not employed.
 - (3) The place of residence of a clergyman, physician, register or practical nurse, dentist, veterinary surgeon or other medical practitioner or Christian Science practitioner, provided the service is not installed in that portion of the customer's residence, which is used as an office, but is located in the customer's domestic establishment, and provided no business designation is employed. Titles such as "Dr.", "Rev.", "Judge", and "Professor" are not considered business designations.
 - (4) Private stable or garage, when strictly a part of the customer's domestic establishment.
 - (5) College fraternity houses where members of the fraternity lodge within the house.
 - (6) Secretarial line terminations of residence main service terminating as extension lines on the premises of a telephone answering bureau.
 - (7) Churches, and for public and parochial schools.
 - d. Changes from business service to residence service are made only in the event of a change in the customer's arrangements, which would entitle him to a residence classification of his service as specified in c. above.

The business telephone number may be continued for the residence service only if all the facts indicate that the service is no longer to be used substantially for business purposes.

e. Changes from residence to business service may usually be made without change to telephone number, if the customer so desires. Service connection charges, which apply for such changes, are quoted as Section 4 of this tariff.

GENERAL REGULATIONS

2.3 <u>Establishment and Furnishing of Service</u> (Continued)

2.3.4 Transfer of Service Between Customers

- a. Service previously furnished one customer may be assumed by a new customer upon due notice of cancellation, or in case of abandonment, provided there is no lapse in the rendition of service. Such transfers are subject to service connection charge regulations and may be arranged for in either of two ways:
 - (1) If the new customer, fully understanding the regulations governing the service and the status of the account, willingly assumes all obligations thereunder, future bills are then rendered to him without and adjustment to or from any particular date, with the Company arranging for the requested change in billing and directory listing.
 - (2) If the new customer does not wish to assume payment of the old account, a new service application is taken and an adjustment in billing is made to and from the date the transfer is effective.
- b. Under either method of transfer, the reassignment of the old telephone number to the service of the new party is arranged for only after the former customer has given his consent to its use, and then only when, in the judgment of the Company, there exists no relationship, business or otherwise, between the old and new customers, and when in the judgment of the Company, a change in the telephone number is not required.
- c. When a relationship does exist, business or otherwise, between the old and new customer, the reassignment of the old telephone number will not be permitted unless all charges due under the current account have been paid, and then only when in the judgment of the Company, a change in the telephone number is not required.
- d. The charges applicable for transfers of service, as indicated above, are the same as the service connection charges as specified in Section 4 of this Tariff.

2.3.5 Initial Service Periods

a. Unless otherwise specified, the initial service period for all services offered in this tariff is one month commencing with the date of installation of the service.

GENERAL REGULATIONS

2.3 <u>Establishment and Furnishing of Service</u> (Continued)

- 2.3.5 Initial Service Periods (Continued)
 - b. The initial service period for Dial PBX systems is thirty-six months at the same location. For all other PBX systems an initial service period of twelve months will apply.
 - c. For services furnished with initial service periods exceeding one month, the applicable initial service period is the number of months indicated in parenthesis listed in that section of this tariff containing the service offered.
 - d. The initial service period relates to each applicable unit of service, either on the initial or subsequent installations.
- 2.3.6 Floor Space, Electric Power and Operating at the Customer's Premises
 - a. The customer is responsible for the provision and maintenance at his expense, of all suitable space and floor arrangements, including but not limited to adequate lighting, proper relative humidity and temperature control, required on his premises for communication facilities provided by the Company in connection with services furnished to the customer by the Company. Any power outlets and commercial power required for the operation of such facilities shall be provided by, and at the expense of the customer.
 - b. Except as may be specified elsewhere in this tariff, all operating required for the use of communications facilities provided by the Company at the customer's premises will be performed at the expense of the customer, and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
- 2.3.7 Provision and Ownership of Equipment and Facilities
 - a. Equipment and facilities furnished by the Company on the premises of a customer or authorized user of the service are the property of the Company and are provided upon the condition that such equipment and facilities, except as expressly provided in this tariff, must be installed, relocated and maintained by the Company and that the Company's employees and agents may enter said premises at any reasonable hour to make collections from coin boxes, to install, inspect or repair any part of the Company equipment and facilities on the customer's premises, or upon termination or cancellation of the service, to remove such equipment and facilities.

GENERAL REGULATIONS

2.3 <u>Establishment and Furnishing of Service</u> (Continued)

2.3.7 Provision and Ownership of Equipment and Facilities (Continued)

- b. Customers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except upon the written consent of the Company.
- c. Equipment and Facilities furnished by the Company shall, upon termination of service from any cause whatsoever, be returned to it in good condition, reasonable wear and tear thereof accepted.

2.3.8 Provision and Ownership of Directories

Telephone directories distributed from time to time by the Company, remain the property of the Company and shall not be mutilated and shall be surrendered upon request. No binder, holder, insert or auxiliary cover or attachment of any kind not furnished by the Company shall be attached to the directories owned by the Company, except that this prohibition shall not apply on a customer-provided binder, holder, insert, or auxiliary cover, which is not so attached as to impede reference to essential service information or otherwise interferes with service.

2.3.9 Provision and Ownership of Telephone Numbers

Telephone numbers are the property of the Company and are assigned to the service furnished the customer. The customer has no property right to the telephone number or any other call number designation associated with services furnished by the Company, and no right to the continuance of service through any particular central office. The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the customer, whenever the Company deems it necessary to do so in the conduct of its business.

2.3.10 Maintenance and Repairs

All ordinary expense of maintenance and repairs, unless otherwise specified in this tariff, is borne by the Company. In case of damage, loss, theft, or destruction of any of the Company's property due to the negligence or willful act of the customer or other persons authorized to use the service, and not due to ordinary wear and tear or causes beyond the control of the customer, the customer shall be required to pay the expense incurred by the Company in connection with the replacement of the property damaged, lost, stolen, or destroyed, or the expense incurred in restoring it to its original condition.

2.3 Establishment and Furnishing of Service (Continued)

2.3.11 Company Facilities at Hazardous or Inaccessible locations.

Where service is to be established at a location that would involve undue hazards, or where accessibility is impracticable to employees of the Company, the customer may be required to install and maintain the Company's equipment and facilities in a manner satisfactory to the Company, and remuneration to be based on the conditions involved.

2.3.12 Work Performed Outside Regular Working Hours

The rates and charges specified in this tariff contemplate that work in connection with furnishing or rearranging service be performed during regular working hours. Whenever a customer requests that work necessarily required in the furnishing or rearranging of his service be performed outside the Company's regular working hours or that once begun be interrupted, so that the Company incurs costs that would not otherwise have been incurred, the customer may be required to pay, in addition to the other rates and charges specified in this tariff, the amount of additional costs incurred by the Company as a result of the customer's special requirements.

2.3.13 Termination of Service

- a. Termination of Service by the Company
 - (1) Violation of any of the regulations contained in this tariff on the part of the customer may be regarded as sufficient cause for termination of the customer's service.
 - (2) When the service is terminated on the initiative of the Company because of violation of its regulations by the customer, the regulations stipulated below for termination of service at the customer's request apply.
 - (3) The Company may refuse to furnish or continue to furnish service hereunder, if such service would be used or is used for a purpose other than for which it is provided or when its use interferes with or impairs, or would interfere with or impair, any other service rendered to the public by the Company.

2.3 <u>Establishment and Furnishing of Service</u> (Continued)

- 2.3.13 Termination of Service (Continued)
 - b. Termination of Service at the Customer's Request

Service may be terminated at any time upon reasonable notice from the customer to the Company. Upon such termination the customer shall be responsible for the payment of all charges due. This includes all charges due for the period service that has been rendered, plus any unexpired portion of an initial service period.

2.4 Payment Arrangements and Credit Allowances

2.4.1 Advance Payments

a. An applicant for service or facilities may be required to pay in advance of installation an amount not to exceed applicable service connection, installation or other non-recurring charges plus charges for one month of service.

GENERAL REGULATIONS

2.4 Payment Arrangements and Credit Allowances (Continued)

2.4.1 Advance Payments (Continued)

- b. The amount of any advance payment collected is credited to the subscriber's account after service is established.
- c. In addition to the advance payment specified in the preceding paragraph, an applicant for telephone service (the furnishing of which involves an unusual installation expense) may, if it is deemed necessary by the Company in safeguarding its interests, be required to make an advance payment of such proportion of the estimated cost as is to be borne by the applicant in addition to such service connection charges as are applicable.
- d. The amount of any advance payment collected because of unusual installation expense is credited to the applicant's account as applying against the construction or installation charge. If the amount of such advance payment collected is in excess of the proportion of such costs to be borne by the applicant, the amount of excess is either returned to the customer or credited to his account.

2.4.2 Deposits

- a. The Company may, in order to safeguard its interest, require an applicant or customer to its services to make a suitable deposit to be held by the Company as a guarantee of the payment of charges. Any such deposit may be held during the continuance of the service as security for the payment of any and all amounts accruing for the service.
- b. Except as otherwise specified in the Company's appropriate tariffs, the amount of such deposit generally shall not exceed the amount of charges for service established to accrue for a period of two (2) months.
- c. Interest shall be paid by the Company upon such deposits at the rate ordered by the Public Service Commission of South Carolina, payable annually for the time such deposits were held by the Company and the customer was served by the Company, unless period is less than six months. Such interest shall be calculated to December 1 of each year, and the payment shall be made by credit to customer's account on the January billing.

2.4.2 Deposits (Continued)

d. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Company's regulations as to advance payments and the prompt payment of bills on presentation or constitutes a waiver or modification of the regular practices of the Company providing for the discontinuance of service for nonpayment of any sums due the Company.

2.4.3 Payment for Service

- a. The customer is responsible for payment of all charges in conjunction with the services furnished him, including collect long distance messages, which have been accepted at the customer's telephone and long distance messages originating at the customer's station.
- b. The customer shall pay on a monthly basis in advance or shall pay on demand all charges for service and equipment, and shall pay on demand all charges for long distance service. Special billing arrangements may be established for services provided to certain Governmental agencies.
- c. Bills are due upon receipt and are payable to the Company or to any agency duly authorized to receive such payments.
- d. Failure to receive a bill does not relieve the customer of the responsibility for payment in accordance with the provisions set forth herein.
- e. Should service be suspended for non-payment of charges, it will be restored only as provided under "Restoration Charge" in Section 4 of this Tariff.
- f. When the service has been disconnected for non-payment, the service agreement is considered to have been terminated. Reestablishment of service may be made only upon the execution of a new service agreement, which is subject to the provisions of this Tariff.

2.4.3 Payment for Service (Continued)

g. In its discretion, the Company may restore or reestablish service which has been suspended or disconnected for non-payment of charges, prior to payment of all charges due. Such restoration or reestablishment shall not be construed as a waiver of any rights to suspend or disconnect service for non-payment of any such or other charges due and unpaid or for any violation of the provisions of this tariff; nor shall the failure to suspend or disconnect service for non-payment of any past due account or accounts operate as a waiver or estoppel to suspend or disconnect service for non-payment of such account or of any other past due account.

2.4.4 Provision for Certain Local Taxes and Fees

- a. When any municipality, other political subdivision, local agency of government or South Carolina Public Service Commission imposes upon and collects from the Company, a gross receipts tax, occupation tax, license tax, permit fee, franchise fee or regulatory fee, such taxes and fees shall, insofar as practicable, be billed pro rata to the Company's customer receiving service within the territorial limits of such municipality, other political subdivision, local agency of government, or public utility commission.
- b. The Company may adjust its rates and charges or impose additional rates and charges on its customers in order to recover amounts it is required by governmental or quasi-government authorities to collect from or pay to others in support of statutory or regulatory programs. Examples of such programs include, but are not limited to, the Universal Service Fund, the Primary Interexchange Carrier Charge, and compensation to payphone service providers for use of their payphones to access the Company's services.

2.5 <u>Liability of the Company</u>

2.5.1 Service Irregularities

The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or failures or defects in facilities furnished by the Company, occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.

2.5.2 Use of Facilities of Other Connecting Carriers

When suitable arrangements can be made, facilities of other connecting carriers may be used in conjunction with this Company's facilities in establishing connection to points not reached by this Company's facilities. Neither this Company nor any connecting carrier participating in a service shall be liable for any act or omission of any other company or companies furnishing a portion of such service.

2.5.3 Indemnifying Agreement

The Company shall be indemnified and saved harmless by the customer or customers against claims for libel, slander, or the infringement of copyright arising directly or indirectly from the material transmitted over the facilities or the use thereof; against claims for infringement of patents arising from combining with, or using in connection with, facilities furnished by the Company, apparatus and systems of the customer; and against all other claims arising out of any act of omission of the customer in connection with the facilities provided by the Company.

2.5.4 Errors in Telephone Directories

a. The Company, except as provided herein, assumes no liability for damages claimed on account of errors or omission from the directories and, in accepting listings as prescribed by applicants or customers, will not assume responsibility for the result of the publication in the directory.

2.5.4 Errors in Telephone Directories (Continued)

a. (Continued)

Claims for damages on account of interruptions to service due to errors or omissions in directory listings will be limited to an amount equivalent to such proportion of the customer's service as is affected, the maximum liability not to exceed one-half the service charges for the period from the date of issuance of the directory in which the error occurred to the date of issuance of a new directory containing the proper listing.

b. In the case of additional or joint user listings in the alphabetical section of the directory for which a charge is made, the Company's liability shall be limited to an amount not to exceed the established rate for such listing during the period which the error or omission continues.

2.5.5 Period for the Presentation of Claims

The Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

2.5.6 Equipment in Explosive Atmosphere

- a. The Company does not guarantee nor make any warranty with respect to equipment provided by it for use in an explosive atmosphere. The customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death or any person or persons, and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said equipment so provided.
- b. The Company may require each customer to sign an agreement for the furnishing of such equipment as a condition precedent to the furnishing of such equipment.

GENERAL REGULATIONS

- 2.5 <u>Liability of the Company</u> (Continued)
 - 2.5.8 Local Service Guarantee Credit (Continued)

This program provides for credits to all residential and single line business customers bills when the Company does not meet the service standards outlined below:

A. Missed Service Commitment: The customer will be given a one (1) month local service credit if the Company fails to meet a commitment and has not notified the customer 24 hours prior to such services as installations, changes to customer calling features, provision of optional calling plans and other similar request.

The credit will not apply if the customer could not be reached by telephone and a notice was left in a conspicuous place 24 hours prior to the commitment date and time, the customer did not make the meeting, or "out of service" conditions exist resulting from natural disasters, or circumstances beyond the control and knowledge of the Company.

B. Service Outages of More Than 24 Hours: A one (1) month local service credit will be applied to the customer's telephone bill if the Company fails to restore basic exchange telephone service within 24 hours after the interruption was reported to or discovered by the Company.

 - B. Service Outages of More Than 24 Hours:

The credit will not apply if premise access is required and neither the customer nor a representative was available at the customer premise and the Company left a notice in a conspicuous place, or the customer had been disconnected for nonpayment of a bill or request for a deposit, or "out of service" conditions exist resulting from natural disasters, or circumstances beyond the control and knowledge of the Company.

(T)

C. Repeat Customer Requests: A one (1) month local service credit will be applied to the customer's telephone bill if the Company fails to accommodate the customer's request the first time and this causes the customer to make a second request within thirty (30) days. Examples of requests which may require multiple business office contacts by a customer include those for billing name and address changes, directory listing changes, requests for credit cards or directories, requests for adjustments, repeat reports of service problems, and moves of cable or drop wires.

This credit will not apply to requests beyond the control of the Company and when the Company has notified the customer.

CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

5.1 Construction Charges

5.1.1 General

- a. Special charges in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates, when, because of the occasional nature of the service or an unusual investment of expense, the revenue does not reasonably compensate the Company, as for example:
 - (1) The facilities are provided on a temporary basis.
 - (2) Conditions require the provision of special equipment or unusual methods of plant construction, installation, or maintenance.
 - (3) The customer's location requires the use of costly right-of-way.
- b. Title to all construction, provided wholly or partly as a customer's expense, is vested in the Company.
- c. The word "cost," when used in this Section, means the implant cost consisting of labor, engineering, materials, supervision, and other overhead expenses associated with the construction. Estimated cost will be used; however, where the customer requests, actual cost will be used where practicable.
- d. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this Section, the attachment rental charges to the Company for such attachments may be assessed to the applicant(s) in whole or in part as the particular circumstances may warrant.
- e. Except as otherwise provided herein, the regulations in this tariff contemplate that the type of construction required to provide the quantity and class of service involved will be determined by the Company. The applicant may be required to pay the additional costs involved where a different type of construction than that proposed by the Company is desired.

CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

5.1 <u>Construction Charges</u> (Continued)

5.1.1 General (Continued)

- f. When an applicant is so located that it is necessary to use private right-ofway to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the costs incurred in securing, clearing, and retaining such right-of-way.
- g. Construction charges will not apply to the customer's station installation which includes the aerial drop which extends from the last pole to the building in which the telephone is located.
- h. No construction charge is applicable for the provision of construction on public highways or other easements within the base rate area, or beyond the base rate area when such construction is to be used in serving customers with the grade and class of telephone service normally offered in a given area.

5.1.2 Construction on Private Property

a. Pole Line Construction

- (1) No construction charge is made for the provision of new pole line construction on private property, either within or without the base rate area, when such pole line is to be used in serving customers in general. Ownership and maintenance of such poles on private property is vested in the Company.
- (2) Except as provided in (1) foregoing and (3) following, poles on private property will be furnished by the Company at a charge to the customer(s) equal to the cost of each such pole; however, the Company will furnish as many as two poles without charge per customer(s) provided that the pole thus furnished are used to carry central office circuits. Ownership and maintenance of such poles is vested in the Company.
 - (a) In lieu of the arrangements specified above, the customer may, at his own expense, provide all poles on private property necessary to serve him. Ownership and maintenance of such poles on private property is vested in the customer.

- 5.1 <u>Construction Charges</u> (Continued)
 - 5.1.2 Construction on Private Property (Continued)
 - a. Pole Line Construction (Continued)
 - (3) Where for the purpose of furnishing extension lines, it is necessary to lay underground conduit, to trench, or to set poles on the customer's premises, the customer is required to provide and install such underground conduit, to dig and backfill trenches, and to provide and erect such poles or the Company will perform the work at the customer's expense. Where the work is performed by the customer, it must be in accordance with the specifications of the Company. In such situations, conduit, trenching, poles or other supporting structure required for central office circuits will be furnished by or at the expense of the customer. Thus, ownership and maintenance of all supporting structure on private property is vested in the customer.
 - (4) Where poles are provided inside the base rate area under the provisions described in (1) or (2) preceding, the Company will furnish and maintain the necessary circuits. In case poles are provided on private property outside the base rate area, the necessary circuits will be furnished and maintained by the Company; however, the customer may be required to bear all or a part of the construction cost of the circuits where the revenue is not expected to be sufficient to insure, within a reasonable time, an adequate return on the necessary investment. Where poles or other supporting structure are provided under (3) preceding the Company will furnish and maintain the necessary circuits.

b. Buried Construction

Where buried construction is furnished instead of pole line construction, at the expressed desire of the applicant, the principles applicable in a. above are followed and an allowance of 300 feet of buried construction will be made in lieu of the specified pole allowance.

5.1.3 Underground Service Entrances

a. General

- (1) Underground service entrances may be provided at the customer's request as special construction in connection with either existing or new services in lieu of the usual aerial drop wire.
- (2) Buried service entrance facilities will be furnished without a construction charge where buried service wire or buried cable would normally be provided by the Company for service entrance.

b. Conditions

- (1) Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition, the customer shall pay the cost of the underground cable including the cost of installing less the estimated cost to the Company of installing such aerial facilities as would be (or are) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Company.
- (2) The duct or ducts required in the underground conduit by the Company to furnish service shall be reserved for its exclusive use.

 - (3) Where armored cable is laid in a trench, the trench shall be constructed and backfilled by or at the expense of the customer. In addition, the customer shall pay the cost of the cable – including the cost of installing – less the estimated cost to the Company of installing such aerial drop as would be (or is) required to furnish the same service.
 - (4) Cable or wire installed in conduit will be maintained and replaced at the expense of the Company where the conduit has been inspected in place by the Company and approved, but repairs or replacements of cable or wire in conduit not so inspected and approved, or repairs or replacements of cable or wire in conduit or trench made necessary by damages caused by the customer or his representative will be made only at the customer's expense.
 - (5) Where facilities are changed from aerial to underground, in addition to the above, the customer is charged the cost of dismantling and removing the aerial facilities.

5.1.4 Special Types of Construction

When a special type of construction other than those covered proceeding is desired by a customer or where the individual requirements of a particular situation make the construction unusually expensive, the customer is required to bear the excess cost of such construction. Any special maintenance expense that may, form time to time, occur will be borne by the customer.

5.1.5 Rearrangement of Existing Plant

When the Company is requested to move or change existing plant for which no specific charge is quoted in this Tariff, the person at whose request such move or change is made may be required to bear the costs incurred.

5.1.6 Construction Required for Temporary Service

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the customer may be required to bear all or a portion of the cost of such construction, plus the estimated cost of removal of the plant, minus net salvage.

5.2 Charges for Unusual Installations

5.2.1 Installation of Interior Wire

a. Inside Wiring

- (1) Except as provided in b. below, the use of exposed wiring is the standard method of wiring all buildings. When concealed wiring is desired, the applicant may be charged the difference between the expense incurred by the Company in providing the concealed wiring and the expense which would otherwise be incurred for exposed wiring.
- (2) Where, due to the type of construction of the building occupied by an applicant or the conditions imposed by the applicant, abnormal expense is incurred by the Company, the applicant shall be required to pay the difference between the expense incurred by the Company and the expense which would normally have been incurred for the installation.

 - (3) The customer may be required to provide suitable access to work space for installation and maintenance purposes, and to remove and replace any ceilings, walls, floors, etc., as may be required. The Company shall reserve the right to refuse to install or maintain wiring in a location where safety of workmen or continuity of service might, in the opinion of the Company, be questioned.
 - b. Preinstallation of Interior Wire in Residential Buildings
 - (1) Preinstallation of interior wire is the provision of wire only for telephone service within a building prior to the establishment of service.
 - (2) Preinstallation of interior wire is limited to residential buildings under construction and does not apply to business establishments or other commercial building construction.
 - (3) At the customer's or builder's request and where conditions permit, the Company will provide preinstallation of interior wire without charge.
 - (4) Preinstallation of interior wire will not be provided where the construction of the building is too far advanced or where the type of construction precludes its use. The final decision as to feasibility of providing and the type and the method of preinstalling interior wire will rest at all times with the Company.
 - (5) Because the Company has no right of control over the premises where the wire is preinstalled, it cannot assume any responsibility for the workability of the wiring provided. In the event the preinstalled interior wire is unusable at the time service is established, or subsequently, service will be provided by means of standard Company interior wiring.

5.3 Special Service Arrangements

- a. Where practicable, special equipment and arrangements, not otherwise provided for in this tariff, are furnished if they are in accord with authorized service offerings and if they are to be used in connection with and not detrimental to any of the services furnished by the Company. Charges for such special service arrangements will be based on the estimated costs of furnishing them, such costs to consist of the following items to the extent they are applicable:
 - (1) Cost of maintenance.
 - (2) Cost of operation.
 - (3) Depreciation on the estimated cost installed of the facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
 - (4) Administration and taxes on the basis of reasonable average charges for these items.
 - (5) Any other specific items of expense associated with the particular situation.
 - (6) A reasonable amount, computed on the estimated cost installed of the facilities provided, for return and contingencies.
- b. Estimated cost installed as mentioned in (3) and (6) above includes cost of equipment and materials specifically provided or used, plus the estimated cost of installing, including engineering, labor, supervision, transportation, right-of-way, and any other investment items.

DIRECTORY LISTINGS

6.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS

- a. The rates and regulations specified herein for directory listings apply only to the alphabetical selection of the directory and the directory assistance records. Listings are identified solely for the purpose of identifying customer's telephone numbers and as an aid to the use of the telephone service.
- b. The listing of customers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. In accepting listings as requested by customers or prospective customers, the Company will not be a party to controversies between customers as a result of the publication of such listings in its directories.
- c. Listings must conform to the Company's specifications with respect to its directories. The Company reserved the right to reject listings when in its judgment such listings would tend to delay or impede the use of the service.
- d. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its judgment the clearness of the listing and the identification of the customer is not impaired thereby.
- e. Except as hereinafter provided, only one listing is furnished without charge for each main service, joint user service, PBX system or Centrex system; where a number of main services are provided on a rotary basis they are considered as one service. If additional listings are required to properly identify the customer, such additional listings may be provided without charge to the extent that the number of listings allowed does not exceed the number of main station lines or PBX trunks associate with that service. Directory listings showing the appropriate Centrex station number may be furnished indented under the main listing or additional listings at the charge for additional listings. Such listings may be specific departments, locations or titles of key personnel.
- f. Additional listings on rotary numbers usually bear the call number of the first line of the rotary group but, at the customer's request, they may bear any one of the rotary numbers.
- g. Street numbers, followed by the names of streets, will be used in identifying the location of the customer except when, in the judgment of the Company names of buildings, apartment houses or communities serve as a better means of identification. The use of floor, room or suite number of buildings or apartment houses, or other such designations is not permitted.

DIRECTORY LISTINGS

6.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS (Continued)

- h. Listings are not provided in connection with public telephone service, except when the listing will facilitate the operations of the Company. No additional listings are permitted. Listings in connection with semipublic telephone service are furnished under the same rates and regulations as other business service.
- i. When in the judgment of the Company the use of reference or other listings in excess of the number of listings permitted without extra charge is previously outlined, are needed for better identification of the customer or governmental offices to facilitate the Company's operations, such listings may be provided without charge.

6.2 BUSINESS LISTINGS

- a. Generally, business listings consist of a name, a designation descriptive of the customer's business if not self-explanatory, the address at which service is rendered, and the business telephone number. The primary listing is ordinarily the name of the individual, firm or corporation which contracts for the service or the name under which a business is regularly conducted, but may be that of a second party designated by the customer. Additional listings may be furnished in the names of partners or members of the firm, if the customer or joint user is a partnership or firm; the names of officers of the corporation where the customer or joint user is a corporation, and for any business establishment, the names of associates or employees of the customer or joint user. Business additional listings may also be the bona fide names of individuals, firms or corporations which the customer or joint user owes or controls, or is duly authorized to and actually does represent. Listings other than those indicated above are furnished subject to the rates and regulations specified for "Joint User Service."
- b. All listings of a customer's services which are located on the same premises must bear the same address, except in the case of outside stations of PBX or Centrex systems, when the address may be shown as the premise where the outside station is located.

6.2.1 Business Designations

a. The designation in a business listing consists of a word or phrase, abbreviated where necessary, that describes the general nature of the customer's business. Designations will not be used where the name under which the customer is doing business is sufficient to indicate the nature of the business. The listing of an individual, together with his title and the name of the business with which he is associated or represents, in lieu of a designation of the general nature of the business, is not permitted. Likewise, the listing of the name

of a firm or corporation, followed by the name or name and title of an individual connected therewith, in lieu of a business designation is not permitted.

b. Listings of clergymen, physicians, surgeons, dentists, veterinary surgeons, professors, government officials, etc., may for purposes of identification include abbreviated designations of titles. Also, the title "Mrs." Or "Miss" is permitted. Degrees are permitted when they serve as a means of better identification; however, titles and designations will be omitted when a degree is used which conveys adequate information.

6.2.2 Trade Names

A trade name created by adding a term such as Company, Agency, Shop, Works, etc., to the name of a commodity or service will not be accepted as a listing, unless the customer shows satisfactory evidence that his is authorized to do business under the trade name. The Company reserves the right to reject listings which appear to be designed primarily to give publicity to the commodity or service, or which in its judgment are otherwise objectionable or unnecessary for identification purposes.

6.3 RESIDENCE LISTINGS

Residence listings consist of a name, the address of the premises at which service is rendered, and the telephone number. The primary listing is ordinarily the name of the individual who contracts for the service, but the listing may be in the name of a second party so designated by the customer. Additional listings may be furnished in the names of relatives, including those by marriage, domestic employees of the customer, or other persons residing in the customer's home who are recognized as part of the customer's domestic establishment.

6.4 NON-PUBLISHED AND NON-LISTED NUMBERS

6.4.1 General

At the request of the customer, a listing or listings (including name, address and telephone number) may be omitted or deleted from the telephone directory. The divulgence of the customer's telephone number to the public is dependent upon the type of service provided.

a. Non-published Numbers

The customer listing is omitted or deleted from the telephone directory. Only the name and address of the customer will be carried in the telephone company information records, and the number will not be given to any calling party.

b. Non-listed Numbers

The customer listing is omitted or deleted from the telephone directory, but such listings will be carried in the telephone company information records and the number will be given to any calling party upon request.

6.4.2 Regulations

a. The Company shall not be liable should a non-listed or non-published telephone number be divulged inadvertently. When a non-published or a non-listed number is inadvertently published in a directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges that the customer has incurred for such service.

The captions must be an essential part of the indented listings, which follow and may include names of departments, branches of the business or titles of officials.

Listings that are variations of the same general line of business, or which in the judgment of the Company appear to advertise the extent of the customer's business, are not permitted in listings to be indented under captions.

6.6.5 Additional Listings for Names Spelled More Than One Way

Customers whose names may be spelled differently from the way such names are commonly pronounced may arrange for additional listings of their names alternately spelled, at the regular additional listing rate.

Listings of alternate spelling are not allowed when in the judgment of the Company they are desired for the purpose of securing a preferential position in the directory or for advertising purposes.

6.6.6 Alternate (Directive) Listings

Customers may obtain listings which refer calling parties to certain other telephone numbers. Alternate listings are of two general types as described below:

- a. Nights, Sundays, and Holidays -
 - (1) This type of alternate listing refers calling parties to an alternate telephone number to be used after business hours and on Sundays and holidays. The monthly rate for such listing is the regular additional listing rate per month for each line of the "Note:" and to each listing included under the "Note:" of the alternate directory listing.

7.1 **PAYSTATION SERVICE**

7.1.1 General

Paystation Service provides telephone service to a customer-leased or owned paystation with or without coin collecting devices. A Paystation Access Line permits providers of such service to provide pay telephone service to the public.

7.1.2 Definitions

Billed Number Screening - Provides automatic blocking via validation data bases of third number billing, collect billing or both to the line.

Coin Supervision - Provides signaling capability from the central office for paystations that do not have signaling capability within the telephone. This signaling capability provides operators and/or operator systems coin control.

Customer - For the purpose of this tariff, the customer is the Paystation Service Provider.

Network Interface Device - A company-provided jack or its equivalent. It is the point of connection between the Company owned wiring and wiring owned by the customer. For the purposes of this tariff, the network interface device will be installed at a location mutually agreed upon by the customer and the Company,

Originating Line Screening (OLS) - Enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned paystations, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available.

Paystation Access Line - A basic coin transmission dial tone line. It is a line side connection from the local exchange switch to the point of demarcation at the customer premises.

7.2 VIRTUAL TELEPHONE NETWORK

7.2.1 General

Basic Virtual Telephone Network (VTN) allows business customers to integrate multiple telephone features and functions by configuring VTN lines into a single VTN Group. The line type and quantity is determined by the customer's need.

VTN is offered only as a complete, integrated service arrangement. The network access, features, and other components of the service are not provided separately or in conjunction with other exchange services. Any other arrangements are outside the scope of this offering.

7.2.2 Standard and Optional Features

- All VTN systems will have the option to be equipped with the following features at no charge:
 - a. Intercom Dialing

Allows VTN users to call other stations within their VTN Group using an abbreviated dialing pattern.

b. Distinctive Ringing

Allows VTN users to listen to the ringing pattern or Call Waiting tone to determine the type of call (intergroup, intragroup, recall, or other feature notification).

- c. Station Restriction
 - Unrestricted

Allows VTN users to place all calls.

- Toll Restricted
 - Restricts VTN users from placing toll calls.
- Fully Restricted

Allows VTN users to only place calls within the VTN Group.

- 900/976 Call Blocking
 - Restricts VTN users from placing 900/976 calls.
- 900/976 & International Call Blocking

Restricts VTN users from placing 900/976 and international calls.

d. Attendant Dial "0"

Allows VTN users to reach an internal attendant by simply pressing "0".

e. <u>Direct Inward Dialing</u> (DID)

Allows VTN users to directly receive incoming calls without the assistance of an attendant.

7.2.4. Termination Liability

If the Customer cancels VTN Service prior to the completion of the term of the Agreement, the Customer shall be obligated to pay one of the following termination liability charges. Customers who fall below their minimum line commitment will have an option of continuing to pay for the minimum number of liens committed to in the contract until the end of the contract term or terminate the contract. If the Customer terminates the contract, the applicable termination liability charge will apply.

1. 12-Month Term

If the Customer cancels service prior to 12 months of service, they will be assessed a liability charge equal to 75 percent of the remaining revenues from the minimum number of lines of the 12-month term.

(Minimum Number of Lines) X (12 Month Line Rate) X (Months to reach 12) X 75%

2. Multi-Term (Canceled Prior to 12 Months)

If the Customer cancels service prior to 12 months, they will be assessed the 12-Month Term liability charge. In addition, the Customer will also be charged the difference between the price they paid and the price they would have paid if on a 12-month term.

(Minimum Number of Lines) X (12 Month Line Rate) X (Months to reach 12) X 75%

(Number of Lines) X (Difference between billed rate and the 12-month line rate) X (Months in Service)

3. Multi-Term (After 12 Months)

If the Customer cancels service after 12 months, but prior to the expiration of the contract, the Customer will be retroactively billed as if the Customer had initially ordered the service at the most recently expired term offered for VTN service.

(Minimum Number of Lines) X (Difference between billed rate and most recently expired line rate) X (Months in Service)

OPTIONAL SERVICES

9.1 ADVANCED CALLING SERVICES

9.1.1 GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allows customers to efficiently manage the call flow, generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

9.1.2 SERVICE DESCRIPTION

A. ANONYMOUS CALL REJECTION

This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking services. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

B. CALL REJECTION

This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers from which he/she does not wish to receive calls. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

OPTIONAL SERVICES

9.1 ADVANCED CALLING SERVICES (Continued)

9.1.2 <u>SERVICE DESCRIPTION</u> (Continued)

C. CALL RETURN

This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call can not be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

Call Return is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Return will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

D. PREFERRED CALL FORWARDING

This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

E. PRIORITY RINGING

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

F. REPEAT DIALING

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

Repeat Dialing is available on a flat monthly rate basis and a pay-per-use basis. Pay-per-use Repeat Dialing will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

G. SPECIAL CALL ACCEPTANCE

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

H. CALLER ID

Caller ID - Basic (Number only) and Caller ID-Deluxe (Name and Number) are the available services.

1) Caller ID - Basic

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.

If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

2) Caller ID - Deluxe

This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party's access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission. The Company will forward all telephone numbers and names where technically feasible.

If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery. Anonymous Call Rejection is included with Caller ID at no charge.

I. CALLER ID BLOCKING

Caller ID Blocking allows the caller to prevent the delivery of his/her calling data to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

1) Caller ID Blocking - Per Call

This service will block the delivery of the caller's data to a Caller ID subscriber for one call only and may be activated from all single party access lines by dialing *67 (1167 from a rotary phone) prior to placing the call. CALLER ID BLOCKING - PER CALL IS PROVIDED TO ALL CUSTOMERS AT NO CHARGE.

Per call blocking may be provided on calls originating from paystations used by the general public and party lines.

2) Caller ID Blocking - Per Line

This service will automatically block the delivery of the caller's data to a Caller ID subscriber on all calls and will be made available or offered, at no charge, to law enforcement agencies and domestic violence programs. Per line blocking can be deactivated by dialing *82 (1182 from a rotary phone) prior to placing the call.

J. CALL TRACE

This service enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. A Call Trace is considered successful when the Company's equipment is able to record the incoming call detail (not the conversation). Incoming call detail includes: the calling number, the time the trace was activated, and in some locations, the time the traced call was received. The results of the trace are never provided to the customer directly. Call Trace information will only be given to appropriate law enforcement agencies. For further action to be taken, the customer is required to contact the Telephone Company Business Office during normal business hours, which will refer the customer to appropriate law enforcement agencies, or contact the law enforcement agency directly. Call Trace detail will be retained by the company and made available to the local law enforcement for ten business days after the trace has been initiated.

Call Trace may not capture incoming telephone numbers marked "private" or "out of area".

Only calls from locations with compatible signaling services are traceable using Call Trace.

Call Trace is available on a flat monthly rate basis and/or on a pay-per-use basis. Pay-per-use Call Trace will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge. The customer will be assessed the Call Trace fee, that will appear on the customer's next bill, upon completion of a successful trace.

9.1.3 SPECIAL CONDITIONS AND LIMITATIONS

- A) Special Conditions for Caller ID:
- 1) An originating caller's data may not be displayed to the called party under the following conditions:
 - The caller's data will not be displayed if the called party is off-hook.
 The called party must be on-hook to receive the caller's data. If the
 customer subscribes to both Call Waiting and Caller ID, and is on an
 existing call, the second incoming call information will not be
 displayed. Instead, the called party will receive the usual Call Waiting
 tone.
 - The caller's data will not be displayed if the called party answers the incoming call during the first ring interval.
 - Caller ID services cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the data message.
 - Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number or name and number (if available) of the PBX or Key System will be displayed.
 - Caller ID services cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.
 - The caller's data will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.
 - The calling party has activated blocking.
 - Caller ID services do not display a directory number or name and number (if available) for operator assisted calls, calls marked private by the originator or calls originating from pay and party line stations.

 - A) Special Conditions for Caller ID: (Continued)
 - 2) The following special conditions apply to Caller ID services based on the FCC Caller ID Order effective 12/1/95:
 - If a customer dials a "1-800" or other Automatic Number Identification (ANI) Service number, the telephone number that they are calling from will be revealed to the called party through ANI technology. Even if the customer has per line blocking or has activated per call blocking, the 800 number party has the right to obtain this information through ANI.
 - ANI information may not be reused or resold for other purposes without a caller's consent, even where the called party has paid for the call.
 - Caller ID services are available on all long distance calls where technically feasible.
 - All calling data will be displayed to E911 through ANI technology, even if the customer has per line blocking or has activated per call blocking.
 - All calling data will be passed, even for customers who do not subscribe to Caller ID.
 - Per Call Blocking will be available to all customers.

9.1.3 SPECIAL CONDITIONS AND LIMITATIONS (Continued)

B) Limitations of Advanced Calling Services:

The management of these services is possible only:

- Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party;
- When both the originating customer and the call terminating customer are served from the same central office;
- When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities;
- If offering Caller ID Deluxe, the Calling Name will be displayed only where appropriate facilities are available to provide a match of Calling Name to Calling Number.

The Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failures, or malfunctions of ACS Services or equipment. Such damages of services after the Company has been notified, and has had reasonable time for repair, shall in no event exceed an amount equivalent to the rates charged for the service affected from the time the customer gives notice until service is restored.

It shall be the responsibility of the customer to provide customer premise equipment (CPE) compatible with ACS.

OPTIONAL SERVICES

9.2 CUSTOM CALLING SERVICES

9.2.1 General

Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

9.2.2. <u>Service Descriptions</u>

1. Call Forwarding

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

2. Call Forward-Busy (Customer Programmable)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

3. Call Forward-No Answer (Customer Programmable)

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company, unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

4. Call Forwarding-Remote Access

This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

5. Call Hold

This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.

6. 3-Way Calling

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use 3-Way Calling will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

7. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

8. Home Intercom-Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

9. Warm Line

This service allows a call to be automatically placed to a pre-assigned number determined by the customer. The call will be placed once the customer's phone has been off-hook for a predetermined time-out period. The time-out period may be set at 1 to 14 seconds. During the time-out period the customer will receive a normal dial tone and can originate calls. Once the time-out period has expired, a call is automatically placed to the pre-assigned number as programmed by the Company.

10. Hotline

This service allows a call to be automatically placed to a pre-assigned number determined by the customer as soon as the customer's phone goes off-hook. The Company will program the pre-assigned number for the customer.

11. Personal Ringing

This service allows the customer to have up to three distinct telephone numbers on a single line. The second and third number will each have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main directory number or all three telephone numbers can be forwarded.

12. Speed Call 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

13. Speed Call 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

14. Do-Not-Disturb

This service prevents incoming calls from ringing at the customer's premises. Callers will reach a recording which states that the number they have dialed is not accepting calls at this time and to try again later. A personal identification number (PIN) is available to allow selected callers the ability to override this service in order to reach the customer.

15. Toll Restriction

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

16. Call Transfer Enhanced

This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the calls, even if the customer drops off the call.

9.2.3. Limitations

- 1. Custom Calling Services require special central office equipment and will be provided only where facilities are available.
- 2. Custom Calling Services are only available on single-line party service.
- 3. Custom Calling Services will not be provided in connection with Paystation Service (except for the business line extension), Private Branch Exchange Trunk Line Service, or Centrex Service.

MISCELLANEOUS SERVICE ARRANGEMENTS

10.8 **N11 SERVICES**

10.8.1 **General**

In compliance with FCC Order 00-256 in CC Docket 92-105 and subsequent orders, N11 Service ("N11") establishes a three-digit local dialing arrangement in the Central Office that automatically transfers "N11" calls to another pre-programmed telephone number (point-to number) determined by the N11 Subscriber.

10.8.2 **Definitions**

The Federal Communications Commission (FCC) administers the N11 codes, and has nationally assigned 211, 311, 511, 711 and 811 to the following special services.

"211"

211 is assigned for community information and referral services.

<u>"311"</u>

311 is assigned for non-emergency police and other governmental information.

"511"

511 is assigned for traffic and transportation information.

"711"

711 is assigned for access to Telecommunications Relay Service (TRS).

"811"

811 is assigned for state One Call Services for providing advance notice of excavation activities to underground facility operators.

10.8.3 **Conditions and Limitations**

- 1. Requests for utilization of the N11 dialing code must be submitted in writing to the state regulatory authority, consistent with applicable sate law for the assignment of the N11 code.
- 2. N11 service is provided subject to the availability of the N11 code and where facilities permit.

- 3. Only one 7 digit or 10 digit or 800 toll-free number may be used as the lead number per basic local calling area.
- 4. Directory listings may be provided for N11 under the terms, conditions and rates specified elsewhere in this Tariff.
- 5. Access to N11 is not available to the following classes of service:
 - 1-
 - 0+, 0- (credit card, third-party billing, collect calls)
 - 101XXXX

In addition, operator assisted calls to the N11 Subscriber will not be completed.

- 6. Suspension of N11 Service is not allowed.
- 7. The N11 Subscriber will subscribe to adequate telephone facilities initially and subsequently as may be required to adequately handle calls to n11 without impairing the Company's general telephone service or telephone plant.
- 8. The Company will provide both oral and written notification when a N11 Subscriber's service unreasonably interferes with or impairs other services rendered to the public by the Company or by other Subscribers of N11. The Company reserves the right once notification is made to institute protective measures up to and including termination at any time and without further notice. The Company may take protective measures when the N11 Subscriber make no modification or is unwilling to accept modification in method of operation, or continues to cause service impairments.
- Calls to N11 will be delivered over existing facilities. If the N11 Subscriber requires different facilities or services; the terms, conditions, and rates for those services found elsewhere in this tariff will apply.
- 10. N11 Service does not provide calling number information in real time to the N11 Subscriber. If the N11 Subscriber needs this type of information, the Subscriber must subscribe to a compatible Caller Identification Service as specified elsewhere.

MISCELLANEOUS SERVICE ARRANGEMENTS

10.8 **N11 SERVICES** (Continued)

10.8.3 Conditions and Limitations (Continued)

- 11. The Company will provision the Subscriber's order within a reasonable time, given the complexity of the order. The N11 Subscriber will be billed the charges when the service is provisioned by the Company.
 - If the N11 Subscriber cancels the order or decides to discontinued service, the N11 code will be recalled and the number will be considered available for reassignment. Any non-recurring charges associated with the establishment of service may not be refunded or waived.
- 12. If the point-to number provided by the N11 Subscriber is disconnected, the Company will route the N11 call to a pre-recorded announcement for 60 days. The announcement will advise the N11 caller that the service is not available.
- 13. The Company only provides N11 dialing to its own customers. The N11 Subscriber should work separately with other providers of telecommunication services for the arrangement of N11 to their customers.
- 14. The N11 Subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases, and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with said service.
- 15. The N11 Subscriber is restricted from selling or transferring the N11 code to an unaffiliated entity, either directly or indirectly.
- 16. The N11 Subscriber shall abide by all terms and conditions, which may be identified by the FCC in CC Docket 92-105 or subsequent dockets regarding the use and return of the N11 dialing code. The N11 Subscriber will be required to migrate to any access arrangement offered in the Company's tariff within the required notice period. If a recall is ordered, the Company will work with the N11 Subscriber affected by such recall to transfer their service arrangements within the required notice period. The N11 Subscriber will be charged the appropriate tariff rates for the establishment of the new access arrangement.

MISCELLANEOUS SERVICE ARRANGEMENTS

10.10 **CUSTOMIZED 911 (C911)**

(N)

A. General

Customized 911 (C911) allows a customer to provide 911 Dispatch Centers (PSAP) with specific information for their PBX station telephone numbers or business lines.

B. Conditions

- 1. There is no charge for requesting updates to information at the PSAP.
- 2. A No Record Found (NRF) Charge applies when the Company receives an NRF report from the local authorities when a 911 call is placed and no 911 information was in the database. If a customer receives 3 of these, C911 will be terminated. The customer is required to provide 911 via one (1) ANI with one (1) address, per PRI T1; or via Analog line.
- 3. The Report Request charge applies when a customer requests a list of their E911 information from the E911 database.
- 4. Except where caused by the willful misconduct or gross negligence of TDS Telecom, the customer agrees to release, indemnify, defend and save harmless the Company from claims, suits, actions, damages, costs, judgments and actions of any nature or from any person related to the C911 Service provided.
- The C911 customer agrees to indemnify and hold harmless TDS Telecom for any infringement or invasion of the right to privacy of person or persons, caused or claimed to be caused by acts or omissions of the Customer and their operation or use of C911 Service.

CONNECTION WITH CERTAIN FACILITIES AND/OR EQUIPMENT OF OTHERS

11.1 General

- a. Customer provided protective circuitry and terminal equipment may be connected at the customer's premises to facilities furnished by the McClellanville Telephone Company, Inc. d/b/a TDS Telecom for use with telecommunication service upon proof of compliance to the following conditions:
 - (1) The customer must comply with Part 68, Subpart B of the Federal Communication Commission Rules and Regulations.
 - (2) The protective circuitry and terminal equipment must comply with Part 68 of the Federal Communication Commission Rules and Regulations.

11.2 <u>Customer Provided Terminal Equipment</u>

a. Credit Allowance

Upon full compliance with paragraph 15.1 of this tariff and where a customer provided instrument is used in lieu of a Telephone Company provided instrument, as an extension station with individual single line residence or individual single line business (non-coin) basic exchange service, a monthly credit of \$.55 per telephone instrument not provided by the Telephone Company shall apply.

11.3 Maintenance Service Charge

a. A non-recurring charge of \$15.00 will apply for each visit to a customer's premises in connection with a service difficulty when it is determined that the difficulty was due to a condition in customer provided terminal equipment or protective circuitry connected to Telephone Company facilities. The Telephone Company is not responsible and will not repair customer provided terminal equipment or protective circuitry.

11.4 Connection to Company Facilities via Protective Circuitry

a. Customer provided terminal equipment not conforming with Part 68 of the Federal Communications Commission Rules and Regulations may be connected to Telephone Company facilities for telecommunication service via protective circuitry provided by the Company. The charges of such protective circuitry will be based upon cost including a return, and will be subject to approval by the Public Service Commission.

PRIVATE LINE SERVICE

13.3. **DEDICATED DS1 SERVICE**

13.3.1. <u>General</u>

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

13.3.2. Definitions

<u>Clear Channel Capability</u> - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

<u>DS1</u> - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

<u>Digital Local Channel</u> - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

13.3.3. Regulations

- a. Dedicated DS1 Service is available for a minimum service period of one month.
- b. Dedicated DS1 Service is available on a month-to month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.
- c. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.
- d. For channelization of Dedicated DS1 Service, please see Digital Transport Service in this Section.

13.3. **<u>DEDICATED DS1 SERVICE</u>** (Continued)

13.3.3 Regulations (Continued)

- e. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract, times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
- f. The rates listed in Paragraph 4., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
- g. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.
- h. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

PRIVATE LINE SERVICE

13.4. **DIGITAL TRANSPORT SERVICE**

13.4.1 General

Digital Transport Service (DTS) provides customers with a cost effective option to deliver voice grade service from the serving Central Office to a customer's premises. DTS is only provided with a DS1 Channel (1.544 Mbps) as provisioned in the Local Private Line tariff. DTS supports Direct Inward Dialing (DID) Service, Dedicated 800 Service, and Local Exchange Business Trunks. The primary users of this service include Internet Service Providers and owners of PBX Systems.

13.4.2. Definitions

<u>DS0</u> - One voice grade circuit. This circuit generally has a 64 Kbps transmission speed.

<u>DS1</u> - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

13.4.3 Regulations

- a. DTS is subject to the availability of central office equipment and appropriate outside plant facilities.
- b. The rate structure for DTS requires charges for Trunk Terminations, DS1 facility, Digital Interface Termination and Subscriber Line Charges (SLC).
- c. The Digital Interface Termination rate is available on a month to month basis or under variable rate periods with rates based on lengths of 12 months, 36 months and 60 months.
- d. The total number of Trunk Terminations activated by the customer may not exceed the capacity of each DS1 facility.
- e. Additional charges for Central Office services and features, such as telephone numbers associated with Direct Inward Dialing (DID) Service, are applicable when appropriate, as specified elsewhere in this tariff.

13.4.3 Regulations (Continued)

- f. Calls will be subject to any applicable usage charges for services provisioned on the DTS channels. Message Telecommunications charges will apply to calls outside the Local Service Area.
- g. Touch-tone signaling is required for DTS.
- h. Unless specifically exempted, DTS is subject to all general regulations applicable to the provision of service by the Company as stated in the general tariff.
- i. As a result of any interface or technical changes required of the Company due to the possible future adoption of FCC rules under Part 68, the Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of DTS render any customer premises equipment provided by a customer obsolete or require modification or alteration of such equipment or systems or otherwise affect its use or performance.

100.1 SYSTEMS PLUS SERVICE (SP)1

100.1.1 General

- a. Systems Plus Service is access line service furnished from digital central office equipment located in company buildings. Systems Plus is not provided in association with public or semi-public telephone service, party line or PABX service.
- b. Systems Plus features may be used in association with both individual exchange access line service and/or groups of exchange access lines arranged as a single Customer Service Group.
- c. A Customer Service Group is an arrangement of 2 or more exchange access lines associated with one individual exchange customer. Joint use of this service is not allowed.
- d. Systems Plus service is subject to the availability of outside plant and/or central office facilities.
- e. Calls between lines within a Customer Service Group are not subject to local measured or metered service.

100.1.2 System Features

- a. Feature capabilities may vary depending on the type of central office equipment.
 - (1) Automatic Line

Provides an automatic immediate connection between a calling station that goes off hook and a predetermined location.

(2) Busy Transfer

This feature allows incoming calls to be transferred automatically to a predetermined line within the Systems Plus customer group if the Systems Plus line is busy.

(3) Call Forward

Allows a station user to have all incoming calls to a station automatically forwarded to a predetermined telephone number.

Effective June 20, 2006, this service will no longer be available to new customers. Once current customers disconnect this service, they will no longer be able to reestablish it.

(4) Call Hold

Allows a station user to place a call on hold by flashing the switchhook and dialing a code.

(5) Warm Line

Provides an automatic connection between a calling station that goes off hook and a predetermined location after a predetermined time lapse.

(6) Call Pick-Up

Allows a station user to answer incoming calls to another station within a defined call pick-up group by dialing a code.

(7) Call Transfer

Allows a station user to hold and transfer incoming, outgoing, and intragroup calls.

(8) Call Waiting

Called busy station may acknowledge the incoming caller and place the existing caller on hold, then alternate the callers or abandon one of the calls. (This feature will not function when Busy Transfer is activated).

(9) Cancel-Call Waiting

This feature allows the station user to effectively "turn off" the Call Waiting option for the duration of a call. This is achieved by dialing a code. When the station goes back on hook, the Cancel-Call Waiting feature will no longer be in effect. This feature may be used to prevent interruptions of date traffic between a station user and a time-sharing computer as well as prevent interruptions of important telephone calls.

(11) Deny Originating

This feature allows the line terminating calls only.

(12) Deny Terminating

This feature allows the line originating calls only.

(13) Directory Number Hunting

This feature allows a call to advance to another number when the originating number called is in use.

(14) Distinctive Ringing

This feature distinguished between intragroup calls and terminating calls from outside the Systems Plus group with different ringing patterns.

(15) Don't Answer Transfer

This feature automatically transfers an incoming call to another predetermined line within the Systems Plus customer group after a specific number of ring attempts at the called Systems Plus line.

(16) Intercom

This feature provides intra Systems Plus group communications by dialing 1 to 5 digits.
